Permit # \_\_\_\_\_

Before a dock electrical inspection can be conducted the following signage must be verified by dock ownership.

*POSTING REQUIREMENTS MUST: Display the permit number, Street address and zip code. Use 3" block lettering. Use a highly contrasting color from the background color. Be located on the lake side of the dock in a location visible from the cove or channel.*

Failure to comply will cause dock to be non compliant with inspection requirements causing and additional \$ 45.00 re-inspection fee after notification from dock owner of compliance.

As a safety requirement all dock inspections will require a passageway to the dock by means of a walk able path of steps are suitable pavement for transition from driveway to dock.

Docks with lock storage buildings must have key available for inspector or left open.

Signature of dock applicant verifying pre requirements of dock inspection.

## Permit Number and Address Posting Requirements

Effective January 1, 2010, Missouri State Law (HB 657), in conjunction with current Ameren Missouri Guidelines, requires that all docks on the Lake of the Ozarks display a dock permit number and the 911 address of the property the dock is most adjacent to. These requirements will not only assist those unfamiliar with their location on the lake, but will assist 911 call centers in dispatching the appropriate first responders during an emergency situation.

Posting requirements must:

- Display the permit number, street address and ZIP Code
- Use 3" block lettering
- Use a highly contrasting color from the background color
- Be located on the lake side of the dock in a location visible from the cove or channel

An example of the posting requirements is shown below.

If you need help determining your 911 address, please contact your county 911 addressing center at:

- Camden County - 573.346.4440
- Miller County - 573.369.1960
- Morgan County - 573.378.2453
- Benton County - 660.438.9555
